

Video Tribute

Schaudt's
FUNERAL SERVICE (C) CREMATION CARE

Provided at all Schaudt's locations

Many families choose to create a photo or video tribute to incorporate into the ceremony for their loved one. Very often, these tributes are a highlight of the ceremony, bringing back treasured memories and emotions. Our families have the option to create the tribute themselves or have it professionally made with the photos, video and musical selections of your choice.

If you are making your own presentation, here are a few things to keep in mind:

- **The best way for us to display presentations is through the use of a thumbdrive with an 'mpeg4' file type. Other forms can work (see below) but this is the preferred method.**
- All media must be complete self-contained presentations. We cannot present separate music files with separate image files.
- We may be able to connect your personal computer (Mac or Windows) or iOS device to our system wirelessly. **This must be tested 48 hours in advance of the event.**
- Home burned DVD presentation software must be burned on quality DVD media
- A recommended DVD's "Memorex DVD-R"
- Presentations should not run longer than 12 minutes.
- You should expect to spend an hour of production time for every running minute of the final presentation. This may vary depending upon experience and equipment.
- **We require a test of ALL media at least 48 hours before your event in case the media is not compatible.**

The following will **not** work with our equipment:

- iMovie – it cannot create a DVD formatted disc
- Powerpoint – it does not reliably play the correct presentation
- Windows Movie Maker – it cannot create a DVD formatted disc

If you would like to have your video tribute professionally created, we recommend that you choose either our video tribute services or use a professional artist that will guarantee your tribute plays without issue.

If you have further questions about your video tribute or would like to schedule a time to come in and test your presentation, please call the director handling your loved one's arrangements.
